Form 100: OAP Data Management Agreement

Proposal Title: _____

_____

Proposal ID (if known): _____

Proposal start date: _____Proposal end date:_____

Data Management POC: _____
                          (name)   (email)

Below are the NOAA Ocean Acidification Program (OAP) data management requirements in compliance with the White House Executive Order - Making Open and Machine Readable the New Default for Government Information (2013) and NOAA Plan for Increasing Public Access to Research Results (2015):

a. Any data generated from NOAA Ocean Acidification Program (OAP) funded projects shall be sent to the National Centers for Environmental Information (NCEI) through the Ocean Acidification Data Stewardship Project: http://www.nodc.noaa.gov/oceanacidification/

b. Investigators are required to fill out the OADS rich metadata form to document their data in detail.

c. The deadline to have your data published at NCEI will be _____ (YYYY-MM-DD, 1 year after the end date of the project for NOAA intramural researchers, or two years after the end date of the project for extramural PIs), or before a paper is published using these data (we recommend you to share your data with NCEI as soon as the paper is accepted), whichever is sooner.

d. Your data need to be PUBLISHED and ACCESSIBLE before the above deadline. It normally takes up to 1 month to publish a data set at NCEI, but when multiple data sets are submitted around the deadline, long delays can occur. For that reason, we recommend to submit your data to NCEI early to avoid delays.

e. You are required to work with NCEI staff and answer any questions they may have in a timely manner to get your data set published.

f. It is YOUR responsibility as the Principal Investigator to meet the above data management requirements. NCEI's role is to help you out.

g. Your track record of past data management will be used for consideration of future OAP funding opportunities.

Please indicate below whether you agree to comply with the above OAP data management requirements or not:

           ☐ Agree.   ☐ Decline.
